### 1. BIO DATA

**Gender:** Male

**Nationality:** Nigerian

### CAREER OBJECTIVES

I'm a hobbyist software developer who has over one year of programming experience. I program in Node, React.Js, Java and Javascript. I am well familiar with frameworks like express, spring boot and I've done a number of projects with node.js, react.js and spring boot. I'm also well familiar with some front end tools like Thymeleaf template engine, HTML and CSS.

I am quite inquisitive and to also improve myself, I'm presently improving my React.Js knowledge. It will be a great opportunity to find a working environment to showcase and also improve my skills.

### SUMMARY OF SKILLS

- Node.js using express
- Java
- React.js
- Javascript
- PostgreSQL and MongoDB using Mongoose
- Unit and Mock testing using JUNIT 5
- Spring MVC and Spring boot
- Spring security
- Git
- Html and Css
- Knowledge of Data structures and Algorithms
- I possess good organizational and communication skill
- Resourceful and proactive in dealing with issues that may arise

### WORK EXPERIENCE
